

**Diamis' CRISTAL platform enables full SEPA compliance
since January 28th 2008**

Paris, 28th January 2008 – CRISTAL successfully processed and conveyed the very first SCT (SEPA Credit Transfer) in Europe, towards the EBA STEP2 clearing system.

Diamis is proud to claim that CRISTAL enabled Natixis to be the very first issuer of a SEPA Credit Transfer in Europe, on January 25th 2008, with clearing date on January 28th 2008.

The CRISTAL platform run by Natixis is based on components of the Multi PE-ACH software package, offered by Diamis.

Marc Raimbault, CEO of Diamis said: *“ Supporting our customers towards SEPA is part of Diamis' strategy. What really set Diamis' solution apart, is our focus in the inter-banking arena and our commitment to deliver our customers with efficient solutions that enable them to meet their challenges”.*

Sabine Lévêque, Diamis' Deputy Manager and CRISTAL product Manager, reported: *“After this first major milestone, we are now confident that CRISTAL will also play a major role in the second TARGET2 window go-live, on the 18th of February 2008, where most of our customers will access the SSP, following those in window 1”.*

About Diamis

Diamis is a leading supplier of payment and settlement solutions. Diamis provides comprehensive solutions that enable the Banking Community to reap the benefits of the payment harmonization process, through global liquidity management of cash assets and access to Clearing and Settlement systems, with CRISTAL and BPEACH software.

About Diamis Solutions

CRISTAL is a “single-window” platform to access TARGET2 and the EBA clearing systems (Euro1, STEP1 and STEP2), together with providing efficient prediction and control of the intra-day liquidity positions across bank accounts and clearing systems.

BPEACH for SEPA aims at managing access to various PE-ACHs (EBA STEP2, STET CORE, VOCA, EQUENS, IBERPAY, SECETI...) to enable banks to reach their preferred CSM(s). Coupled with CRISTAL, BPEACH enables Multi PE-ACH monitoring features, as a full SEPA compliant solution.
